

## PROBE TU-3011B

**TU-3011B Multimeter Test Probe High Quality Multi Meter Test Lead Pen Cable to test current voltage resistance capacitance**

### **Quick Details**

Place of Origin: china

Model Number: TU-3011B

Shielding: Combination

Conductor Material: Copper

Jacket: PE

Insulation Material: PE

Operating Mode: as the discription

Display Type: Digital Display

DIY Supplies: Electrical

## **Product Details**

Matching for professional multimeter to test current, voltage, resistance, capacitance, frequency and temperature.

### **Features:**

Design for multimeter test.

Suitable for all kinds of multimeter.

Different color for different current range.

If you want to change your multimeter test lead, you can get it.

High quality and easy to use.

### **Specifications:**

Color: Grey

Color of the Wire: Black + Red

Material: Nickel Brass + Insulated Rubber

Max Current: 10A / 20A (Optional)

Max Voltage: 1000V

Item Size: Approx 112cm / 44.1in

Item Weight: 76.1g / 2.7oz

Package Size: 21.5 \* 13.8 \* 1.6cm / 8.5 \* 5.4 \* 0.6in

Package Weight: 81g / 2.8oz

### **Package List:**

2 \* Multimeter Test Probe (One Set)
