#### **INTRODUCTION**

Forward Group was established by Mr. Sammy Cheng and Mr. Daniel Choi in 1997 to serve the *increasing* demand for the electronic components and semiconductors in the global market.

Through many years of continuous efforts to serve our customers, we realized that quality product and on time delivery are the key points to maintain and develop our customer base.

The strong production and quality control teams apply to our production and our OEM factories to ensure on time delivery and quality. Direct supply of the raw materials from our raw material sourcing house guarantees our competitive price in the global market. These are the reason for the rapid and healthy growth in the past years even though many component suppliers suffered from the Asian financial turmoil since 1997.

Today, Forward Group has expanded with the sale office in Mainland China and Singapore and ready to serve the global market even better.

# PRODUCTS

- Transistors
- Silicon Diodes
- LED and LED Displays
- ⇒ LCDs

#### **LCD Display**

The Yeebo Group of companies was set up in 1988. It is principally engaged in the development, manufacture and sale of liquid crystal displays ("LCDS") which are used in a variety of consumer electronic products such as calculators, watches, clocks, databanks and handheld games, in 1993, the shares of Yeebo (International Holdings) Limited, the holding company of the Group, started to be listed in The Stock Exchange of Hong Kong Limited.

The Yeebo Group has two LCD manufacturing plants in the Mainland China, one in Jiangmen and the other in Dongguan. At present, the Group employs over 5,000 workers in aggregate, and have a combined LCD production capacity of consuming 100,000 square meters ITO glass per month, making the Group one of the largest LCD manufacturers in the world.

The senior management of the Yeebo Group has extensive experience and expertise in the LCD business .The Group offers a wide range of LCD products in TN, HTN, STN and LCD modules used in mass produced consumer electronic products with different levels of complexity. The Group's LCDs are manufactured either according to standardized designs and sizes prevailing in the market or as customized products .To optimize the performance and efficiency of the production facilities, most of the key machinery and equipment presently used in the LCD manufacturing process were designed and assembled by the Group. In order to further reduce its cost of production and improve efficiency, The Group integrates vertically the LCD production process by installing the ITO Coating System. The Group is one of the few LCD manufacturers in the world with the ability to produce ITO coated glass in -house.

In 1998, the Group was awarded ISO9001 in recognition of the quality of its management system.

Set out below is the milestone of the Group:

- 1988: Commencement of business of the Group.
- 1991: Commencement of operations of the existing Dongguan factory.

1993: Commencement of operations of the existing Jiangmen factory.

1993: Listing of the Group in The Stock Exchange of Hong Kong Limited. 1998: Awardment of ISO9001.
