

## EVALUATION BOARD/KIT IMPORTANT NOTICE

Texas Instruments (TI) provides the enclosed product(s) under the following conditions:

This evaluation board/kits is intended for use for ENGINEERING DEVELOPMENT, DEMONSTRATION, OR EVALUATION PURPOSES ONLY and is not considered by TI to be a finished end product fit for general consumer use. Persons handling the product(s) must have electronics training and observe good engineering practice standards. As such, the goods being provided are not intended to be complete in terms of required design-, marketing-, and/or manufacturing related protective considerations, including product safety and environmental measures typically found in end products that incorporate such semiconductor components or circuit boards. This evaluation board/kits does not fall within the scope of the European Union directives regarding electromagnetic compatibility, restricted substances (RoHS), recycling (WEEE), FCC, CE or UL, and therefore may not meet the technical requirements of these directives or other related directives.

Should this evaluation board/kits not meet the specifications indicated in the User's Guide, the board/kits may be returned within 30 days from the date of delivery for a full refund. THE FOREGOING WARRANTY IS THE EXCLUSIVE WARRANTY MADE BY SELLER TO BUYER AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

The user assumes all responsibility and liability for proper and safe handling of the goods. Further, the user indemnifies TI from all claims arising from the handling or use of the goods. Due to the open construction of the product, it is the user's responsibility to take any and all appropriate precautions with regard to electrostatic discharge.

EXCEPT TO THE EXTENT OF THE INDEMNITY SET FORTH ABOVE, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES.

TI currently deals with a variety of customers for products, and therefore our arrangement with the user is not exclusive.

TI assumes no liability for applications assistance, customer product design, software performance, or infringement of patents or services described herein.

Please read the User's Guide and, specifically, the Warnings and Restrictions notice in the User's Guide prior to handling the product. This notice contains important safety information about temperatures and voltages. For additional information on TI's environmental and/or safety programs, please contact the TI application engineer or visit [www.ti.com/esh](http://www.ti.com/esh).

No license is granted under any patent right or other intellectual property right of TI covering or relating to any machine, process, or combination in which such TI products or services might be or are used.

### FCC WARNING

This evaluation board/kits is intended for use for ENGINEERING DEVELOPMENT, DEMONSTRATION, OR EVALUATION PURPOSES ONLY and is not considered by TI to be a finished end product fit for general consumer use. It generates, uses, and can radiate radio frequency energy and has not been tested for compliance with the limits of computing devices pursuant to part 15 of FCC rules, which are designed to provide reasonable protection against radio frequency interference. Operation of this equipment in other environments may cause interference with radio communications, in which case the user at his own expense will be required to take whatever measures may be required to correct this interference.

Important Notice: The products and services of Texas Instruments Incorporated and its subsidiaries described herein are sold subject to TI's standard terms and conditions of sale. Customers are advised to obtain the most current and complete information about TI products and services before placing orders. TI assumes no liability for applications assistance, customer's applications or product designs, software performance, or infringement of patents. The publication of information regarding any other company's products or services does not constitute TI's approval, warranty or endorsement thereof.

# Quick Start Guide: TMS570 Microcontroller Development Stick

The TMS570 Microcontroller Development Stick is ideal for evaluating and starting development with the TMS570 family of devices. It is powered by a PC's USB port and features on-board USB JTAG emulation along with access to several key peripheral pins.

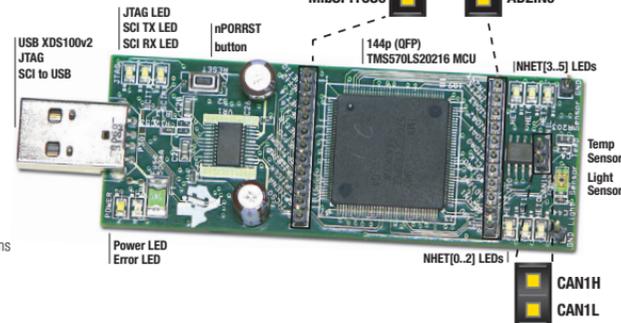

### TMS570 Microcontroller Development Stick Features:

- 144p QFP TMS570LS20216 MCU
- USB powered
- On board USB XDS100v2 JTAG
- On board SCI to USB serial
- Access to key peripheral pins
- 6 NHET LEDs
- Ambient light sensor
- Temperature sensor
- CAN transceiver

**IMPORTANT:** Code Composer Studio™ 4.x or the TMS570 Safety MCU Demo software must be installed before the USB Development Stick is plugged into the PC! All TMS570 applications run on the Development Stick should be limited to 100MHz HCLK speed.

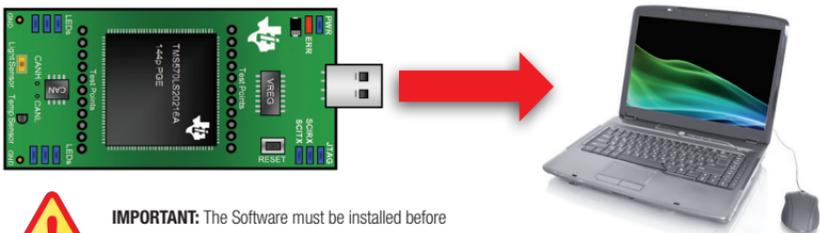

## Quick Start Guide: TMS570 USB Development Stick Safety MCU Demos

- 1** Install the TMS570 MCU Development Kit Software. A full install is required to ensure that all demo features of the MCU Development Stick are available.

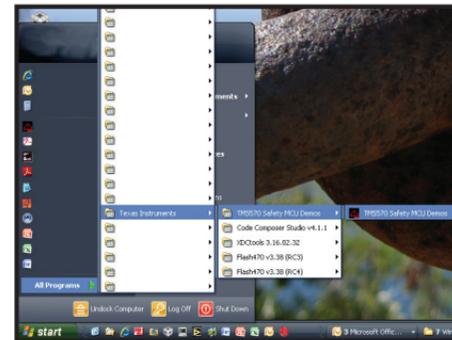

- 2** Plug the MCU Development Stick into a USB port on the PC. The USB extension cable provided with the kit may be used.

**IMPORTANT:** The Software must be installed before the USB Development Stick is plugged into the PC!

- 3** Start the TMS570 Safety Demo Software. In Windows XP, the software will be available in 'Start->All Programs->Texas Instruments->TMS570 Safety MCU Demos.

- 4** Launch any of the TMS570 Demos from the launch pad. Internet access is required to view the device documentation. Code Composer Studio™ software must be installed to view the microcontroller source code.
