

## 0.26-1.0 UH-3A

### Specifications

1.0 uH 3A coil wire wrap toroid inductor choke latest

1. Inductance: 1.0 uH

2. Current: 3A

3. Pass the ISO 9001, RoHS certification

**1.0 uH 3A coil wire wrap toroid inductor choke latest**

**Specifications of 1.0 uH 3A coil wire wrap toroid inductor choke latest:**

1. Inductance: 1.0 uH

2. Wire diameter: 0.2mm

3. Professional engineer and competitive price

4. Strict and responsible quality control department, so we could ensure about the quality.

**Features of 1.0 uH 3A coil wire wrap toroid inductor choke latest:**

**Wire diameter** 0.2mm

**Inductance** 1.0 uH

**Curent**            5A  
**Application**      Used for consumer electronics , Communication devices,  
Vehicles electrical system, IT, Astronautics, Surveillance  
and national defense ect.  
**Certification**    SGS Certification  
**Characteristics** RoHS compliant

### Primary competitive advantages of 100uH 5A coil wire wrap toroid inductor choke latest

- a) Country of region, with good transportation and good circumstances
- b) Experienced technical staff
- c) Pass the ISO 9001, RoHS certification
- d) High energy saving, low resistance.

We have successfully exported to Russia, Malaysia, HK, Czech Republic, America, Australia, Belgium and Singapore and UK and other countries, we have win good praise in consumers due to the high quality, good service, low price and short delivery time.

### Environmental data for 100uH 5A coil wire wrap toroid inductor choke latest

- 1. Storage temperature: -40 °C to +125 °C
- 2. Working temperature: -40 °C to +125 °C

### Applications of 100uH 5A coil wire wrap toroid inductor choke latest:

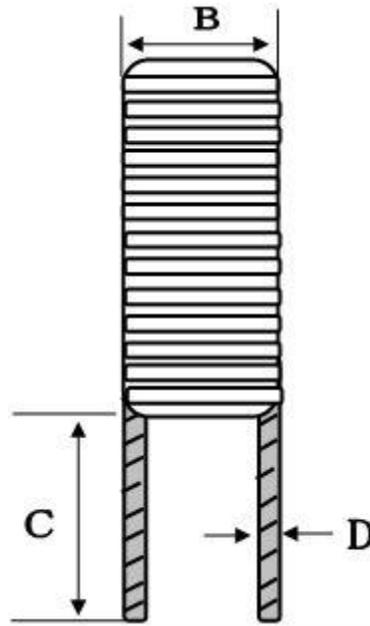

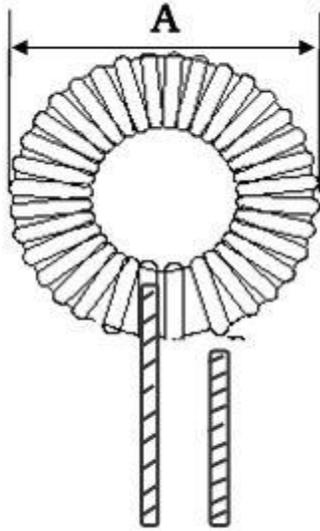

Used for consumer electronics , Communication devices, Vehicles electrical system, IT, Astronautics, Surveillance and national defense ect.

Be able to design and manufacture under customer's special request.

100uH 5A coil wire wrap toroid inductor choke latest mainly exported to Asia, America, Europe and Africa.

### The drawing paper of 100uH 5A coil wire wrap toroid inductor choke latest

SHAPE&DIMENSION(mm):

A: MAX 53 mm

B: MAX 25 mm

C: 45±2mm

D: 2.8±0.1mm

Winding:1.4\*2\*33.5 TS
