

5A Constant Current Module – XL4005 – Non-Isolated

Description

- 5A constant voltage and constant current module
- Can be used as Lithium charger
- Can be used as a LED Driver
- Input voltage:5-32V
- Output voltage:0.8-30V
- Output current: Adjustable, 5A max
- Efficiency: up to 96%
- Chip Used: XL4005
- Operating Temperature: -40 to +85C
- Dissipation Power: 75W maximum

- Operating frequency: 180KHz
