Edison Opto Corporation (**Chinese**: 艾笛森光電股份有限公司; **pinyin**: *Àidīsēn Guāngdiàn Gūfēn Yǒuxiàn Gōngsī*) is a global leading high power LED manufacturer, established in October, 2001 based in [Taipei, Taiwan](#).

Edison Opto Corporation is principally engaged in the research, manufacture and distribution of high power light emitting diodes (LEDs). Edison Opto's major products include high power LED components and modules, applied to lighting equipment, such as portable products lighting, special lighting, building lighting, commercial lighting and outdoor lighting; Datalink, used as digital music and signal transmission interface for acoustic systems, mobile phones and personal computers (PC) mainboards, and opto sensors, applied for digital cameras and personal digital assistants (PDAs), among others. In 2011, Edison Opto created the LDMS service program, which integrates the four essential technologies in LED lighting applications (Thermal Management, Electrical Scheme, Mechanical Refinement and Optical Optimization). In aspect of quality policy, Edison Opto established a photometric testing laboratory which was certified by UL as a LM80 approved and product safety testing laboratory.
