Product Overview

We suggest that *print out* the **demo handbook** first, then install the **DEMO** program.

Year Introduced: 1986

EMUL51-PC

8051 FAMILY FROM ALL SUPPLIERS

[Click here to view the EMUL51-PC Demo Handbook](#)

To **INSTALL** the EMUL51-PC Demo software:

RUN [cd drive]:\demos\emul51\disk1\setup

Note: The following ChipView-x51 demo will not run without hardware; if you experience problems, contact ChipTools technical support at (905) 274-6244.

To **INSTALL** the ChipView-x51 WINDOWS Demo software:

RUN [cd drive]:\demos\ChipVx51\setup

To install the ChipTools "ChipView-51" DOS demo software:

1. Create a new directory on your hard disk called "CV51".
2. Make this your working directory.
3. Type: [CD drive]\demos\ChipV51\install
