

=====

SETUP FOR CD-BIZ COMMERCIAL AND INDUSTRIAL

=====

WINDOWS 3.1 OR 3.11 USER

While the Setup program is installing the application files, you may be Prompted that some files are currently used by the system. Press the "ignore" button to ignore the warning and continue with the installation.

WINDOWS 95 USER

The CD-ROM Driectory has included an Autorun property which invoke the setup program in the CD automatically. However, this function will be possible if the autoplay function of your CD Drive is enabled. After placing the CD-ROM into the CD Drive, allow a period of 10 to 20 seconds for your system to detect the CD-ROM (in "MY COMPUTER", you will find the icon for your A: drive, C: drive, CD-ROM Drive etc.). The icon of the CD-ROM Drive will change to take the name of the Label of the CD. Soon after the detection, the setup program will run.

Remark : Close All Applications Currently Running Before Installaing
The CD.
